Tiruvavur, India

SKILLS

Language: Python,c++,
javascript

Web: Flask,HTML,Css,
Bootstrap

Database:
SQLite,MySQL,NOSql

Tools: Git, vs
code,JupyterLab, canvas

AI/ML: scikit-
learn,opencv,
Numpy,pandas

LANGUAGES

English
Full Professional Proficiency

Tamil
Native or Bilingual Proficiency

Sanskrit
Elementary Proficiency

STRENGTH

Quick Learner

Logical Thinker

Team player

Creative thinker

EDUCATION

Swami Dayananda college of Arts & Science
Manjakudi, kodavasal

06/2023 - Present

Courses

- B.Sc in Artificial intelligence and machine learning

PERSONAL PROJECTS

Face Recognition Attendance System

- Developed a Flask-based smart attendance system integrating face recognition registration. The system automatically records attendance with date and time, stores it in SQLite3, and provides a web-based dashboard for daily and monthly reports.Technologies: Python, Flask, OpenCV, SQLite3,HTML, CSS

Citizen AI

- Citizen AI is an intelligent civic engagement platform designed to help citizens report local issues, access government services, and receive AI-powered assistance for civic awareness. It integrates machine learning for complaint categorization and chatbot-based guidance.Technologies: Python, Flask, Machine Learning, NLP, HTML, CSS, JavaScript

CERTIFICATES

Python for Data Science, AI & Development from IBM

Natural language processing using python offered by Deeplearning.ai

Generative AI in Action from IBM

Artificial Intelligence from IBM

INTERSHIP

Python development internship in data manipulation and machine learning
(05/2024 - 06/2024)

At swaas system private limited

Data science and machine learning using R and python (07/2024 - 09/2024)

At prag robotics associated with AICTE
